EDUCATION

B.Tech — CSE
United College of Engineering & Research (AKTU)
Prayagraj, Uttar Pradesh
2025 – Present | 1st Year

TECHNICAL SKILLS

- Python (Basics)
- C Programming
- Data Analysis (Fundamentals)
- MS Office Suite
- Online Advertising & Reporting Tools

LANGUAGES

Hindi — Native
English — Proficient

CERTIFICATIONS

Data Science / AI / ML
TCS iON & Coursera
YES+ Program
Art of Living Foundation

INTERESTS

- AI & Emerging Technologies
- Tech Content

PROFESSIONAL SUMMARY

Driven and curious first-year B.Tech (CSE) student with genuine passion for **Data Science and Artificial Intelligence**. Proactively building a strong technical foundation through structured courses on TCS iON and Coursera — well beyond classroom demands. Known as a resilient, solution-first thinker who leans into problems, adapts quickly, and finds practical paths forward. Seeking a **Data Science / AI-ML internship** to apply growing knowledge, collaborate with industry professionals, and accelerate career growth in a field of deep personal commitment.

KEY COMPETENCIES

- Analytical Thinking** Strong logical reasoning and structured problem decomposition

Adaptability Quick learner; comfortable with new tools and frameworks independently

Self-Motivation Pursues certifications and learning well beyond the syllabus
- Communication** Clear verbal and written; effective in team environments

Creativity Applies creative thinking to technical problems and content creation

Collaboration Team player with strong interpersonal and leadership mindset

TECHNICAL FOUNDATION & COURSEWORK

- C Programming:** Completed as part of B.Tech curriculum — covering loops, functions, arrays, pointers, and memory management; built strong logical and structural coding fundamentals.
- Data Science & AI/ML:** Pursuing modules through TCS iON and Coursera covering Python basics, data manipulation, and ML fundamentals — well ahead of curriculum schedule.
- Digital Marketing Analytics:** Familiar with online advertising reporting tools and dashboards; understanding of data-driven campaign performance metrics.

PROJECTS & ACTIVITIES

- Tech Content Creator:** Actively creates peer-facing content that breaks down complex AI and Data Science concepts into accessible formats — demonstrating both domain knowledge and communication skill.
- YES+ Program — Art of Living Foundation:** Completed Youth Empowerment & Skills program; developed leadership mindset, emotional resilience, and team collaboration skills.
- Consistent Self-Learner:** Completed multiple value-add certifications in parallel with B.Tech coursework, demonstrating initiative and

Creation

- Creative Writing
- Problem Solving & Puzzles

disciplined time management.

WHAT I BRING TO YOUR TEAM

A fresh, eager perspective backed by real initiative — I do not wait to be taught; I go out and learn. I bring curiosity, discipline, and a collaborative spirit, making me an intern who **adds measurable value from day one.**
